

## BAIE VERTE MINERS' REGISTRY: HAVE YOU SIGNED UP?

This occupational health registry is for everyone who worked at the asbestos mine in Baie Verte for any amount of time. You should register if you worked as a mine employee, a stevedore, a summer student, an employee of the sawmill, or as an employee of any company that had a contract with the mine. Family members of deceased miners can register on their behalf. The registry is not just for employees who now have asbestos-related health problems. It is also for those who do not, since these problems can develop many years after exposure.

So far, 1100 people have signed up, but there are still many people who have not registered. Please help make the Registry as inclusive as possible.
